# Fulfill all your payment needs.

Make payments simple with a platform that allows you to securely process in a variety of ways and manage transactions from anywhere.

Real-Time Transaction Management

All of our payment acceptance products come with complementary access to CardPointe, giving you the power to manage processed payments and view full transaction lifecycle reports in real-time. Effortlessly void, capture and refund - from your desktop, tablet or smartphone.
P2PE Terminal

This plug-and-play terminal secures every transaction with a powerful combination of point-to-point encryption and tokenization, allowing you to accept cards with magnetic stripes and EMV chips, as well as NFC payments, with peace of mind.

CardPointe Virtual Terminal

Accept credit/debit cards and eChecks with the most convenient terminal - your computer or device. Securely complete orders by keying in cardholder information or use a variety of device options. For recurring transactions, quickly set up a bill plan for any customer.
Mobile

Extend the benefits of the CardPointe platform to your mobile device with our native iOS and Android app. Label, price, discount and organize all of your products and services within the app, for a simplified checkout process. Download it for free from the Apple and Google Play stores and even get set up with our mobile device to swipe or dip cards for the ultimate on-the-go payments experience.

Hosted Payment Page

If you're looking for basic payment functionality for your online store, like the addition of a 'Pay Now' button, CardPointe HPP is a simple and secure solution that's fast to set up because there's no need to involve a developer.
