

Meet the VP3300

The CardPointe Mobile VP3300 device makes it quick and easy to add EMV acceptance on-the-go, for businesses of all sizes. The Bluetooth-enabled device accepts a variety of payment types and when combined with the CardPointe Gateway, provides a solution that protects each and every transaction.

FEATURES TO LOVE

-  Bluetooth connectivity
-  Swipe, dip, tap (coming soon)
-  Accept payments on-the-go

DEVICE PRICING

Purchase: **\$225**

There's More

- The CardPointe Mobile EMV device is powered by Bolt, which means it's also available for direct integration with the Bolt Mobile iOS and Android SDKs
- Businesses can easily add EMV payment acceptance to already-existing applications - what's sweeter than that?
